The Speer bill requiring all deeds to state the true consideration, was defeated in the Senate.

One good bill that ought to pass is Senate bill 323, to prevent divorced persons from remarrying within a year.

An American woman doctor who escaped drowning when the Ancona was torpedoed, has asked \$100,000 of Austria and \$20,000 of the United States. She ought at least to credit the claim by the cost of saving her and bringing her back to New York, probably \$150.

Representative Pumphrey on Friday introduced a resolution empowering the Governor to name a commission to investigate the extent to which feeble-mindedness prevails in Kentucky. The commission to begin work in Frankfort presumably before the general assembly adjourns and report in 1918.

The Courier-Journal had an entire section Sunday devoted to good roads, with a map on the front page purporting to give the leading highways. The Davis Highway is only shown as far as Fairview and the Dixie Bee Line Highway is not shown at all. And still worse, Hopkinsville is not on the so-called map of Kentucky.

Chas. C. Daniels, brother of the Secretary of the Navy, who was an attorney for the government at Minneapolis, in handling Indian land transfers, has been succeeded by F. J. Kearful and will quit the government service. He was offered an assistant's place. For some reason a more Kearful man was wanted at the head of the work.

GROWING SENTIMENT

For The Bond Issue Insures Its Success Next Month.

ALL ROADS TO BE BENEFITED

Good Roads Association Succinctly Elucidates The Plan Proposed.

The proposed bond issue to be voted upon Saturday, March 18, is a plan for improving and developing all the roads of Christian county. While it means that Christian county's part of the "Dixie Bee Line Highway" will become a reality and not a dream, it also means that every section of the county is to be benefited as well.

Briefly the plan proposed is this: Under the present Constitution of Kentucky, the State of Kentucky can lend its credit to any of the counties in the State for the purpose of enabling those counties to issue or float bonds to build roads. The limit of a county's bonded indebtedness is 5 per cent. of its total assessed value of taxable property. Christian county at present has an assessment for taxation, of all property, both real and personal and railroad franchises of a little more than \$15,000,000. The present bonded debt of the county is \$262,000.

Christian county at present, under the law, can issue practically \$500,000 worth of bonds. However, an issue of \$400,000 is contemplated.

Under the State aid law, passed by the Legislature in 1914, the State of Kentucky proposes to help each county in proportion to what each county does for itself in the matter of building roads. The law provides that if a county should issue bonds for the purpose of building roads under the inspection and supervision of the State Road Department, that the State of Kentucky will apply each year a pro rata part of the State road fund upon the interest and sinking fund necessary to retire these bonds.

Under this arrangement Christian county is in a position to receive each year if it issues bonds, approximately \$15,000 from the State Road Fund until the bond issue is retired.

The bond issue of \$400,000 means an interest charge of 5 per cent. or \$20,000 and an additional sum of \$10,000 annually for the purpose of creating a sinking fund. With the State help Christian county will be able to finance the whole issue of \$400,000 at an expense of only \$15,000 per year, which is less than the interest upon the entire amount. This \$15,000 is to be raised by a slight increase of 10 cents on each \$100 worth of property in Christian county, making the tax rate 60 cents instead of 50 cents as it now stands.

If Christian county does not avail herself of this opportunity to issue bonds it will absolutely lose the State help of \$15,000 a year which it might put into good highways, since the Road and Bridge Fund of \$35,000 is not sufficient to meet the needs of the dirt roads, and of the old turnpikes, which must be maintained and repaired. In addition to this loss of \$15,000 the county will also lose whatever it pays into the State Road Fund, which means at least \$6,500 per year, not to speak of the numerous automobile license taxes paid by citizens of this county.

The plan to vote these bonds is non-partisan and nonpolitical and is fostered by the Good Roads Association of the county.

STORE BROKEN OPEN.

S. Bohn's store, Sixth street, was entered by burglars Friday night and about \$35 in cash was taken. Entrance to the building was effected by prizing the rear door. It was evident that the thieves wanted only money, as nothing else was missed from the store.

CORNERSTONE OF NEW EDIFICE LAID WITH IMPOSING CEREMONIES

PRELIMINARY SERVICES WERE HELD SUNDAY WITH DISTINGUISHED METHODIST PULPIT ORATORS ASSISTING AT THREE GREAT MEETINGS.

Three great meetings preliminary to the laying of the cornerstone of the new \$75,000 Methodist church were held here Sunday in the presence of large crowds. There were separate services, all of which were held at the Union Tabernacle, the auditorium of the present Methodist church being entirely inadequate.

The first of these services was a sermon at 11 o'clock by Bishop Atkins, of Waynesville, N. C. In the afternoon, Dr. T. N. Ivey, of Nashville, delivered an address and at night Dr. H. M. DuBose, of Nashville, spoke.

Yesterday morning at 11 o'clock the formal laying of the cornerstone took place. This was in reality the placing in the cornerstone of a metal box containing records of interest in connection with the building of the new church, a list of those who have contributed to the enterprise in money or service, etc., and the placing in its place in front of the space occupied by this box, a stone tablet. The construction is already well advanced, the window and door frames being in place and the stone work being well past the first floor.

The church will stand as a monument to the ability, energy and resourcefulness of the present pastor, Dr. Lewis Powell.

The services began with the song "How Firm a Foundation." The speakers and a large part of the crowd present were upon the temporary floors above the basement, but as many or more were gathered about the church on the ground.

Bishop Jas. Atkins was the first speaker and briefly congratulated the congregation on its magnificent future house of worship. He was followed by Dr. DuBose, who gave a brief sketch of the Methodism in America from the first conference in 1782 to the present time.

Dr. Lewis Powell then took charge and proceeding to the northeast corner of the building placed in a niche

a brass box containing a number of articles and then sealed the opening with a stone 21-2 feet square and nine inches thick, containing the name of the church and the date of erection. The following articles were placed in the box.

MORE BOMBS ON ENGLAND.

London, Feb. 21.—Four German seaplanes yesterday made a raid over the east and southeast coasts of England, according to an official announcement made this evening. Seventeen bombs fell. One close to a church, blowing in the windows as the congregation was singing "Te Deum." A third bomb fell on a roadway running along the beach, killing one civilian and injuring one marine. The total casualties were two men and one boy killed and one marine wounded.

SECOND TIME.

A joint resolution proposing to submit to the people the question of enfranchising women in the state of Virginia, was defeated in the house of delegates, 52 to 40. Two years ago a similar resolution received only 13 favorable votes and the big increase in the vote greatly pleased suffrage leaders.

BRITISH LOSE TRENCHES

Germans Take and Hold Position Over Front of 350 Meters North of Ypres.

London, Feb. 21.—The Russian army which captured Erzerum, in Armenia, is endeavoring to cut off the retreat of the Turks, who are retreating with as much speed as possible. Dispatches from Petrograd report the capture of the towns of Mush and Achlat, to the south, heavy fighting preceding their taking by storm. The next objective of the southern wing of the Russian army is Diarbek, which lies within striking distance of the Bagdad railway. This line would open up the road for Russians into Syria.

Along the Black sea coast, Russian warships are pounding at the Turkish batteries and harassing the retreating troops. The northern wing of the Russian army has captured the town of Widge and is driving the Turks back in the direction of Gumish Khaneh, which is on the road to Trebizond, while large Russian forces are moving westward from Erzerum with the object of cutting off these Turkish troops before they can reach a new line of defense.

GERMANS TAKE POSITION.

The Germans have been operating vigorously against the British and French along the Yser canal in Belgium to the north of Ypres. From the British 350 meters of a position were captured and held, despite hand grenade attacks to recapture it. After a heavy bombardment, the Germans attempted to cross the canal and occupy French positions and several groups of them did succeed in making their way to a first line trench. The French however, drove them back.

The British to the south of Loos, in a lively engagement succeeded in making an advance to the edge of a mine crater held by the Germans.

The French in Champagne between the Meuse and Moselle rivers and to the west of the forest of Apremont have bombarded successfully German positions while in the Argonne forest a mine exploded by the French shattered the German works.

Only isolated engagements have taken place on the Russian front. On the Austro-Italian line the artillery duels continue.

NEGRO GIRL'S WOUNDS FATAL

Belle Cooper Dies of Stabs Inflicted Several Weeks Ago.

Belle Cooper, a colored girl, 20 years of age, who was stabbed by her lover, Richard Bronaugh, several weeks ago, died Sunday night and Bronaugh is now held on a charge of murder. He was arrested by Deputy Sheriff Herbert Johnson not long ago. The affair took place at Bronaugh's mother's, Delia Bronaugh. In a jealous quarrel, Bronaugh drew a knife and slashed the girl's legs to the bone. She developed blood poison and became hopelessly ill. Before she died she made a statement to County Attorney Smith.

PUZZLED OVER WOMEN

FEMALE SEX A MYSTERY TO THE
HEBREW SAGES.Classed With Fools as Subjects Be-
yond Comprehension—Remarks
Made by Author of the Book
of Ecclesiasticus.Two subjects seem to have occupied
the attention of the Hebrew sages to
a marked degree. They are always re-
curring to them. In the midst of max-
ims about the conduct of life the sage
cannot forbear to take a side swipe
at fools and women. He finds them
both beyond comprehension.To get his point of view it is neces-
sary to remember that there were no
asylums in the Orient. Every village
had its imbeciles, who were a feature
of the town life. The village fool was
a far more prominent person in the
ancient East, and forced himself much
more on public attention than the
feeble-minded person of today, who
usually is kept in the background.As for women? Well, the ancient
world never was able to make them
out any way. Their incessant chatter-
ing was evidently a great annoyance
to the solemn, white-bearded patri-
archs.One of the most human of the an-
cient sages was the author of the
Book of Ecclesiasticus in the Apoc-
rypha, Jesus, the son of Sirach. His
book has a distinct flavor, a quality
that makes it entertaining reading.
The imagination pictures him a man
of gracious dignity, reserved, serious,
taking his obligations with the grav-
ity of his race. Experience has dis-
closed to him most of the mysteries
of the world—except women."A daughter," he confesses, "is a
secret cause of wakefulness to a fa-
ther, and the care of her putteth away
sleep." That seems to have been the
general attitude of the sages toward
the female aspect of affairs. He en-
larges on the subject in another place:"I will rather dwell with a lion and
a dragon than keep house with a
wicked woman. The wickedness of a
woman changeth the look and dark-
eneth her countenance as a bear doth.
Her husband shall sit at meat among
his neighbors, and when he heareth
it he sigheth bitterly. All malice is
but little to the malice of a woman;
let the portion of a sinner fall on her.
As the going up a sandy way is to the
feet of the aged, so is a wife full of
words to a quiet man. A wicked wom-
an is abasement of heart, and sadness
of countenance, and a wounded heart.
A woman that will not make her hus-
band happy is as hands that hang
down, and palsied knees. From a
woman was the beginning of sin, and
because of her we all die. A silent
woman is a gift of the Lord."The "wickedness" to which so much
exception was taken seems to have
been contentiousness. The wise man
of the East, desirous of leading a con-
templative life, was simply worn to
death by an ill-tempered, talkative
wife. That was why a silent woman
—was a gift of the Lord. The only bit
of conversation on the part of Socrates
with Xantippe that is recalled is the
word, "Hush!"Fat Woman Has Light Fingers.
Step lively. Watch your step. Also
keep your eye on any fat woman rid-
ing in the subway. To add to the var-
ious and extensive difficulties of sub-
way travel there has appeared over
the underground horizon within the
last three weeks a very stout woman
with big and light hands who is col-
lecting pocketbooks. She is very
quick, very crafty in her general con-
duct and has been very successful.
Last night while one of the wom-
an passengers was absorbed in read-
ing the back of a newspaper which be-
longed to a man across the aisle, the
door opened, many left and as it was
about to shut again the stout woman
leaped up, hit the tired-looking man
on the hat and fled, announcing that
it was their station. Everyone pres-
ent smiled, and so did the woman, who
was reading the other man's newspa-
per, until she looked for her pocket-
book, which had been on her lap. The
train had left the station and there
was nothing to be done. Scores of
complaints have been recorded, and
unless the stout woman exercises with
frightful energy to disguise herself
business is going to slow up abruptly.

One of those post-Christmas stories
that are told. Bene Zene.
"On a Payne avenue car, Christmas
eve, a meek-looking man occupied a
front cross seat in the back end of the
car. (It can be done. Ed.) A 250-
pounder came in and slammed himself
down upon the vacant end of the seat.
The meek-looker flinched, showed
signs of distress, rose and crawled out,
and as he went he said: 'You can have
it. Help yourself. This is Christmas.'
He took a side seat and said to a pas-
senger, 'He wanted my seat. He got
it. Take a squint at him—looks like a
funny picture in a paper. Some of
the passengers smiled, some guffawed,
but it didn't feaze the big fellow.
When a few blocks further on the
meek-looker got off, the fat man gave
him a generous grin, waved his hand
and shouted, 'Merry Christmas!'

No Cure for Grippe.

There is no use worrying about the
weather, about the war, about unpleas-
ant neighbors, about pressing neces-
sities and about everything, but one.
Go out and get the grippe. When you
get that all your other troubles will
be trivial. The doctors tell of many
ways to prevent the grippe, but not
one has discovered a cure. Put sul-
phur in your shoes, advises one phy-
sician, as a preventive. Another says
the some asafetida around your neck;
that will keep the grippe germs away
and your friends also. A third sug-
gests eating saline crackers and go-
ing to bed, while another says soap
is a hereditary enemy of la grippe.
Lather yourself with it and then go to
bed. A Brooklyn physician advises
grippe patients to wait in some hospi-
tal and have that sinister thyroid
gland cut away from its lair. Then
you will be immune. "Don't smoke,
don't drink, don't indulge in kissing,
and above all taboo eating as much
as possible," says the health depart-
ment, then you escape the ka-choo.
The foregoing are only a few ways
to prevent grippe. If you carefully
follow all these instructions what is
left of you will not have the grippe.

Metals and Munitions.

Some remarkable facts about the
metal required to fill the orders for
shrapnel and other shells that Europe
has placed in the United States were
given recently by the Mining and En-
gineering World. A British 3.3-inch
shrapnel shell requires 6 pounds 15 1/2
ounces of steel, and 5 pounds 9 1/2
ounces of brass that contains from 66
to 70 per cent of copper, or about 3 1/2
pounds; and round the shell is a small
copper band that weighs 4 1/2 ounces.
A shell of that size requires 1.87
pounds of spelter. Its contents con-
sist of 7.92 pounds of bullets, com-
posed of seven parts of lead and one
part of antimony. Now, Europe has
ordered not less than 25,000,000 shells
of all kinds. To make them will use

BIG BLAZE YESTERDAY

Dalton Bros. Brick Company
Sustain \$2,000 Loss By
Fire.

The Dalton Bros. Brick Company's hay shed and tool house on North Jessup Avenue was totally destroyed by fire about 8 o'clock yesterday morning. The structure contained eighty tons of baled fodder and loose hay and a large lot of farming implements. When the flames were discovered an alarm was turned in and the fire department responded promptly. About 1,300 feet of hose had to be used in getting a water play, but the fire had made such headway that but little good could be accomplished. One hay tedder and one plow were the only implements saved. The loss is not less than \$2,000, with \$1,500 insurance. It is not known how the fire originated.

Treaty Ratified.

The senate by a vote of 55 to 18 ratified the long pending and persistently opposed Nicaraguan treaty, whereby the United States would acquire a ninety-nine-year option on the Nicaraguan canal route and a naval base in the Gulf of Fonseca for \$3,000,000.

Included in the ratification resolution was a provision declaring that the United States in obtaining the naval base does not intend to violate any existing rights in the Fonseca gulf of Costa Rica, Honduras and Salvador, which had protested against the proposed requirement.

Five democratic senators voted against the treaty. They were Chamberlain, Martine, Clarke of Arkansas, Thomas and Vardaman.

FAKE TELEPHONE CALL

Woman Leaves to Answer and Thief Secures Jewelry.

Louisville, Ky., Feb. 21.—Gone for twenty minutes to answer a fake telephone call from Owensboro, Ky., Mrs. C. Hundley, 2909 Edwin avenue, returned to find her house looted of \$150 worth of jewelry. The thief is believed to have a confederate, who pulled the telephone trick, and when he saw Mrs. Hundley leave her residence, went in and ransacked the place in whirlwind order. Mrs. Hundley left the door unlocked. The thief obligingly locked it and when he had filled his pockets, made his exit through the window. The police have no clue to the identity of the robbers.

Hazelip Accused.

Paducah, Ky., Feb. 21.—City Commissioner Thomas N. Hazelip, former Mayor of Paducah; George Jacobs, prominent bottling man; John Hass and Casper Jones were made defendants before the City Court Friday on eight warrants charging them with sale and abetting sale of beer and whisky without license.

The alleged offense occurred at the Independent Club, a political organization, of which Hazelip is president, Hass secretary and Jacob treasurer. Jones was custodian of the club.

All gave bond for appearance Saturday in the sum of \$800.

"The Rose Maiden."

"The Rose Maiden," which will be given at the Avalon on next Thursday evening, promises to be a real treat. The rehearsals under the direction of Mrs. Clayton Dagg Richards are being held nightly. REMAINS SHIPPED TO SPRINGFIELD.

William Proctor died at the Western State hospital morning of epilepsy. He was 39 years old. The remains were shipped to Springfield, Tenn., yesterday afternoon.

The conquest of the entire Kamerun, the German possession in Western Africa, is officially announced in the London dispatches. The territory taken from the Teutons there includes 191,130 square miles, with 2,540,000 inhabitants.

The favorite dish of the crown prince of Sweden is a salad made of chicken, bananas, grapefruit and wine sauce.

It's a Revolution.

In fourteen counties in Kentucky in 1915, two-thirds of the voters declared for the issue of road bonds to the amount of \$2,100,000. In the same year, road bond issues to the amount of \$2,840,000 received a majority of the votes cast, but fell short of what was thought to be the necessary two-thirds. In the Fayette county road bond case, Judge Hurt writing the opinion, the Court of Appeals, by dictum, holds that, under the constitutional amendment adopted in 1909, which is now Section 137-A of the Constitution, a majority vote determines. There is now before the court an appeal from Daviess county based on a like interpretation of this section. If the dictum in the Fayette county case governs in that of Daviess county, the total amount of road bonds issued by twenty-seven counties in Kentucky in the year 1915 will be \$4,940,000. In the year 1916, Harlan has already voted \$250,000 and Scott has voted \$100,000 of bonds by a two-thirds vote. Bond issues are pending in Christian, Union, Powell, Letcher, Knott and Casey counties.

In no county where the question has been submitted to the voters has a majority ever failed to declare for the bonds. Operating under the majority rule, it may reasonably be expected that every bond issue voted on this year will carry and that before the close of 1916, something like fifty counties will be bonded to an amount not far short of \$10,000,000.

With State aid and convict labor on the roads, the intercounty seat, State-wide system of roads should be completed as soon as the actual work of construction can be done. Kentucky today is not only the leading State of the South in the matter of road building, but the leader of all the States. The State-aid law of 1914 has worked not a transformation, but a revolution.—Times.

Some in Middlesboro.

The Hopkinsville Kentuckian gives a full account of a leap year bride who proposed and is accepted. We see nothing wrong in a lady proposing for marriage if she wants to. Society has set a law which seems hard to overcome. There are a lot of old bachelors in Middlesboro who might be induced to change their way of living if the proper pressure were brought to bear upon them.—Three States.

Not Satisfactory.

The Glenn-Greene Fire Insurance Bill is still unacceptable to the insurance companies because of a provision allowing the State Rating Board to lower the rates filed December 31, 1915, at any time.

Higher Rates.

The proposal to amend the income tax law so as to include smaller incomes is virtually certain to be abandoned in favor of an increased rate on those already taxed, according to Democratic House leaders.

Bird Law.

An early decision is expected from the United States Supreme Court on the constitutionality of the Federal migratory bird law.

LOST BOT GAMIS

But Paducah Game Was Lengthened to Break a Tie.

Henderson easily defeated Hopkinsville Friday night at Henderson in the basket ball game by 76 to 10. The locals were clearly out-matched. Without coming home they went to Paducah to play Saturday night and in a fine and hard fought game were again defeated, but by the narrow margin of 21 to 19. The first half ended 9 to 4 in favor of Hopkinsville. The game ended 16 to 16. Five minutes was added to the play to break the tie and Paducah won with a new man put in the game.

FOR THOSE FOND OF HONEY

Missouri College of Agriculture Has Published Some Recipes That Will Be Found Useful.

Brown Bread.—One-half cupful of honey, one and a half cupfuls of sour milk or buttermilk, three cupfuls of graham flour, one teaspoonful of soda. Nuts and raisins may be added if desired.

Soft Gingerbread.—Half a cupful of sugar, one cupful of extracted honey (or sorghum), half a cupful of butter, one teaspoonful each of cloves, ginger and cinnamon, two teaspoonfuls of soda dissolved in one cupful of boiling water, two and a half cupfuls of flour. Add two well-beaten eggs the last thing before baking.

Honey Muffins.—One pint of flour, two teaspoonfuls of baking powder, one-half teaspoonful of salt, sifted four times; yolks of two eggs beaten lightly, one and a fourth cupfuls of cream. Beat thoroughly, then fold in lightly in the beaten whites of two eggs and two tablespoonfuls of extracted honey. Bake in muffin pans and serve while hot.

No Money Available.

Frankfort, Ky., Feb. 21.—Gov. Stanley in an interview declared that he is opposed to an appropriation for the Kentucky Illiteracy Commission. He realizes the importance of the campaign against illiteracy, but declares that the financial condition of the State forbids an appropriation for the purpose, or for a number of other meritorious purposes, which he enumerates.

The Governor's statement contains the striking declaration, illustrative of Kentucky's poverty, that the Institute for the Feeble-minded has been condemned as unsafe and that its walls are likely to collapse at any time, but that there is no money available to avert such a catastrophe.

PIGS IS PIGS.

The same applies to lumber, but there are many, many grades and kinds of lumber.

Our business is to furnish you with lumber of the best quality at the lowest price. If you are thinking of building a new house or repairing your old one, you can do better here than elsewhere, as many of our pleased customers will testify. We are anxious that you get good stock for we want your house and our reputation to wear equally well.

The purchase of doors, sash and blinds requires good judgment in their selection or else you must purchase them from a good reliable lumber yard like ours.

Contractors and builders know that good work cannot be done with poor material and that is why so many of them are our customers.

Whatever you need in the way of building material, this is the place to come for it.

Only 122 Killed.

As to the ability of Carranza to fulfill his promises to protect foreign lives and property, Secretary Lansing in a report to congress said that under all the circumstances the defacto government, which at the time of recognition controlled seventy-five per cent. of Mexican territory, is affording "reasonably adequate protection to the lives and property of American citizens."

The data disclosed the fact that 75 Americans were killed in Mexico in 1913, 1914 and 1915 as compared with 47 in the preceding years and that 20 civilian Americans and 16 soldiers were killed on American soil in the last three years as a result of the Mexican troubles.

PLANE AS PRESENT FOR LEAP YEAR BRIDE

Sent by The Gage Tool Co., of
Vineville, N. J.

The editor of the Kentuckian has received from the Gage Tool Co., of Vineville, N. J., a present for Mrs. James Herbert Tweddell, nee Sallie E. Brown, the Leap Year bride, married here Feb. 15th. In a letter accompanying the gift, Mr. Jno. P. Gage writes:

"The Philadelphia Record of Feb. 16 had a little article from Hopkinsville, Ky., which we are inclosing and we are also sending to your address a little Self-Setting Plane to be delivered to Mrs. James Herbert Tweddell with our compliments. These Self-Setting Planes are most favorably known as the only plane that a woman can use and keep her disposition sweet. We thought it might assist the young couple in keeping things smooth around the house. It often happens in new houses that the furniture is apt to get rough and need smoothing."

The plane is a handy little tool, just the right size, and it is claimed for it that the bit will cut the end of a hemlock knot. It is also guaranteed to do this without cutting the matrimonial knot that binds the young couple together. The plane is quite an appropriate wedding gift. The mule was given to the young couple by Mr. "Leavell" and a large crowd "Saw" the ceremony performed. Everything "Augurs" well for their future.

Frost Bill Passed.

The Senate Friday by a vote of 25 to 8 passed the Frost bill prohibiting the shipping into local territory of more than half a gallon of whisky or five gallons of beer. Senator Moore's amendment to require coca cola to be sold only in licensed saloons was defeated. The bill was passed after it had been amended to exclude any reference to the barring of liquor advertisements in newspapers. The house passed the Lee bill to make the second violation of local option laws a felony. The measure passed unanimously.

FINAL FIGURES

Assessor's Report as Equalized
Shows Slight Increase
Over 1915.

A recapitulation of the figures on the assessed valuation of the tangible property of Christian county shows an increase of \$71,715 over the year 1915. Property valuations are as follows: Land, \$6,681,480; lots, \$3,422,175; cash and notes, \$879,805; personal property, \$2,228,170. Exemption \$665,250, leaving a total for taxation of \$12,846,380.

Lead Pencil Production.

The world's production of lead pencils, according to a recent article by H. S. Sacket, of the forest service, probably amounts to nearly 2,000,000,000 a year, half of which are made from American-grown cedar. The United States makes about 750,000,000 a year, or more than eight pencils for each of its inhabitants. Owing to the scarcity of red cedar and the fact that many other trees now little used appear to be more or less valuable substitutes for that wood in pencil-making, the forest service has carried out a series of tests which show that, next to the two species heretofore used for this purpose, the best trees for pencils are, in order of merit, Rocky Mountain red cedar, big tree (Sequoia), Port Arford cedar, redwood and alligator juniper.

Knocks Down Instructor.

Annapolis, Md., Feb. 21.—T. H. Harrison, Jr., of Virginia, one of the eighty-two midshipmen who recently were forced to resign from the Naval Academy because of deficiencies in studies, Friday knocked down Instructor Julian M. Lacalle, of the Academy, when the two men came to blows after an angry conversation on the street. Friends quickly separated them and neither was badly hurt.

Dr. Henry Ford.

Paducah, Ky., Feb. 21.—Dr. Henry Ford, aged 80 years, a well-known physician, died at the home of his grand-daughter, Mrs. Laura King, in this city, from infirmities caused by old age. The deceased was a native of Tennessee and had resided in Paducah several years. He is survived by three grand-children, who are: Mrs. King and Mrs. Emily Carpenter, both of Paducah, and Mrs. Kate Carr of Elizabethtown, Ky. The body was taken to Hopkinsville, Ky., for burial.

An Ancient Clock.

What is probably the oldest clock in this section of the State was repaired recently by J. M. Groves for John L. Carroll, of Fairview. Road Bond Election

Notice--To the Voters of Christian County.

Pursuant to an order entered upon the first Monday in February, 1916, to wit February 7th by the County Judge of Christian County upon his Order Book, and under the directions of the County Court of Christian County, I hereby inform and notify all of the legal voters of Christian County, that upon Saturday, March 18th, 1916, there will be held in the thirty-two election precincts in said County at the voting places thereof, an election upon the following questions which will be submitted to the voters of Christian County, to-wit: "ARE YOU IN FAVOR OF ISSUING \$400,000 IN BONDS FOR THE PURPOSE OF BUILDING ROADS AND BRIDGES?"

Further, I have been directed to advertise the objects of said election, and therefore set them forth as follows, to-wit:

This election is held for the purpose of enabling the County of Christian to improve its roads under the State Aid Law, whereby the State refunds or pays back, one half of the amount issued in bonds, in annual installments.

Eight Commissioners already selected and recognized by the Fiscal Court of Christian County, four from the North end of the County, to-wit: D. T. Cranor, W. W. Durham, J. P. Myers and Waller Martin; and four from the South end of the County, to-wit: O. E. Layne, W. C. Binns, Howard Brame and Ben F. Wood, are to handle the proceeds of the bond issue to be voted upon, and to designate the roads, under the supervision of the Fiscal Court and the State Road Department.

By an order and resolution passed by the Fiscal Court of Christian County, upon Tuesday, February 1, 1916, the Princeton and Russellville roads shall be known as the dividing line between the Northern portion of the County, and the Southern portion of the County, and the proceeds of any bonds to be voted at this election must be equally divided between the portion of the County north of said dividing line, and the portion south of said dividing line. Any amount spent upon the Princeton and Russellville roads, is to be chargeable one half to each of these respective sections.

The object of this bond issue, is to improve ALL the roads of the County, and is not for the purpose of giving aid and benefit to any certain road.

This February 10th, 1916.

LEAVENED BREAD A MENACE

Italian Hygienist Recommends the Substitution of Whole Wheat With Minimum Amount of Yeast.

Leavened bread has been declared a menace to health as well as a national economic loss by Prof. A. Romano, a distinguished Italian hygienist. Professor Romano's statement came as a result of the study of Italian scientists and medical men of the bread and wheat situation to forestall the threatened shortage of wheat and consequently bread. The professor urges in substitution of the leavened bread a bread made from whole wheat and, at the most, from the minimum of yeast.

The Italian expert declares that the process of leavening makes bread too soft and renders it liable to be badly masticated and imperfectly mixed with saliva, especially when taken in milk or soup or dipped into various liquids according to prevailing Italian custom, when it is apt to be rapidly swallowed. The digestion of bread under these conditions is more or less imperfect, even though it does not necessarily reach the point of causing dyspeptic symptoms, and it is assimilated in less proportion to what it would be in normal circumstances.

Moreover, the added yeast preserves part of its activity even after baking, and continues to ferment in the stomach, giving rise to the production of acetic and lactic acids, among other substances, which are harmful to those subject to an irritable state of the mucous membrane. Professor Romano insists, therefore, that the use of white leavened bread is a serious error in alimentary hygiene, while it also constitutes an enormous loss in domestic and national economy. He advises that bread should not only be made with whole wheat, but that it should not be subjected to the process of leavening.

Least it should be thought impossible to manufacture a wholesome bread without leavening which would satisfy the taste, he mentions that such bread has been for some time on the market abroad, and in regard to flavor has met with entire approbation.

THE THRICE-A-WEEK EDITION OF THE NEW YORK WORLD

Practically a Daily at the Price of a Weekly. No other Newspaper in the world gives so much at so low a price.

There never has been a time when a newspaper was more needed in the household. The great war in Europe has now entered its second year, with no promise of an end for a long time. These are world-shaking events, in which the United States, willing or unwilling, has been compelled to take a part. No intelligent person can ignore such issues.

The Presidential contest also will soon be at hand. Already candidates for the nomination are in the field, and the campaign owing to the extraordinary character of the times, will be of supreme interest. No other newspaper will inform you with the promptness and cheapness of the Thrice-A-Week edition of the New York World.

THE THRICE-A-WEEK WORLD'S regular subscription price is only \$1.00 per year, and it pays for 156 papers. We offer this unequalled newspaper and the Hopkinsville Kentuckian together one year for \$2.65. The regular subscription price of the two papers is \$3.00.

Boy Always Has String.

The story is told that there was a bad accident in the street of a big city. A surgeon happened to be at the spot and was soon rendering first aid. He did not have his medicine kit with him. He needed something, and needed it quickly. "Boy," he said, to a youngster in the crowd, "hand me that string out of your pocket." And the string was forthcoming. "How did you know that that boy had a string in his pocket?" asked a spectator later. "Why, every real boy carries string in his pocket," said the surgeon. - Indianapolis News.

FARM POULTRY

MIXTURE FOR LAYING FOWLS

Scatter Equal Parts of Cracked Corn, Wheat and Oats in Litter—Make Hens Exercise.

In order to obtain eggs it is necessary to have healthy, vigorous stock, properly fed.

A splendid mixture for laying hens is equal parts of cracked corn, wheat, and oats, which should be scattered in the litter.

Bran or middlings and beef scraps should be kept in receptacles to which the fowls have access at all times.

Plenty of exercise increases the egg yield.

Provide four or five inches of good, clean litter in which to scatter the grain.

Cabbages, mangels, potatoes, sprouted oats, etc., make excellent green feed.

When wet mashers are fed be sure they are crumbly and not sticky.

For the first three days chicks may be fed a mixture of equal parts hard-boiled eggs and stale bread, or stale bread soaked in milk. When bread and milk are used, care should be exercised to squeeze all milk out of the bread. From the third or fourth day until the chicks can eat wheat and cracked corn, commercial chick feed is a good ration.

Plenty of pure, fresh water, grit, shell, and green feed should be available from the first day.

There is very little danger of over-feeding young stock.

Feed the chickens about five times daily and only what they will eat up clean in a few minutes, except at night, when they should receive all they want.

FEED HOPPER FOR CHICKENS

Device is Easily Constructed Out of Old Soap Box—Grain Supply Kept Properly Screened.

A feed hopper for chickens can easily be made by sawing the sides of a laundry soap box as indicated. A lid is fastened on the top by hinges, and the feed is poured in at the top. The front slants, which keeps the feed always sliding down as it is taken out

A Feed Hopper for Chickens.

of the opening. The opening is covered with chicken wire to keep the fowls from stepping into the feed and fouling it. The dotted lines show the original construction of the box.—Popular Science.

GOOD EGG-PRODUCTION HINTS

Presence of Male Bird Has No Influence on Number of Eggs Laid—Infertile Eggs Best.

Produce the infertile eggs. Infertile eggs are produced by hens having no male bird with them.

Removing the male bird has no influence on the number of eggs laid by hens.

The hen's greatest profit-producing period is the first and second years, and unless a hen is an exceptionally good breeder she should be disposed of at the end of her second laying season and before starting to molt.

Few eggs can be expected until the pullets are matured.

If possible, mark the pullets that lay in the fall, and use them in the breeding pen for the following spring.

Soft-shelled eggs are often caused by fowls being confined, becoming overfat, and from lack of mineral matter.

CHICKENS NEED GREEN FOOD

Cabbage Tied to Stake is Excellent—Long Stuff is Liable to Cause Trouble With Hens.

When green food is given to hens in confinement it should always be cut or chopped fine. A cabbage tied to a stake is excellent, but a variety is better.

White clover, red clover, lawn grass, tops of vegetables, or even young corn fodder, will be relished by the hens if chopped into short lengths so that they can easily eat it.

Long food sometimes causes the hens to become crop bound.

Grit is Necessary.

It is absolutely necessary to supply grit, in order to keep fowls healthy, as grit takes the place of teeth.

A TWICE-TOLD TALE

One of Interest To Our Readers.

Good news bears repeating, and when it is confirmed after a long lapse of time, even if we hesitated to believe it at first hearing, we feel secure in accepting its truth now. The following experience of an Elkton man is confirmed after three years.

W. E. Watson, produce dealer, Elkton, Ky., says: "I had pain in the small of my back, which bothered me especially when stooping or lifting. My back ached at night and I was lame in the morning. I tired easily and had headaches and dizzy spells. The kidney secretions passed too frequently and colds settled in my kidneys. Doan's Kidney Pills did good work."

Over three years later, Mr. Watson said: "I seldom use Doan's Kidney Pills, but when I need them, I would pay \$5.00 a box for them. They are worth that much to anyone suffering from kidney trouble."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Watson has twice publicly recommended. Foster-Milburn Co., Props., Buffalo, N. Y.—Advertisement.

Make Better Time Now.

When it came to traveling, the folks back in 1700 tried to burn up the road, just like the speed fiends of the present day. A newspaper dated March 10, 1737, in the library at New York, tells about a flying trip made in 14 hours between New York and Philadelphia. Eighty miles in 14 hours does not seem to us such breathless speed, but the same paper says that in order to accomplish this feat, "John Butler, with his wagon, must needs set out from the sign of the 'Death of the Fox' at daybreak and drive at top speed (the horses being changed at each stage ere the coach stops rocking), to meet the ferry of Rubin Fitzrandolph, which delivers passengers in New York by night." For those leisure times this was indeed "going some."

Itch! Itch! Itch!—Scratch! Scratch! Scratch! The more you scratch, the worse the itch. Try Doan's Ointment. For eczema, any skin itching. 50c a box.—Advertisement.

State Spirit.

"You may spell 'heathen,' Phyllis," said the teacher to the youngest member of the class in spelling. "He-a-t-h-e-n," slowly spelled little Phyllis. "Correct," replied the teacher. "And now, Phyllis, can you tell me what a heathen is?" "A heathen is anyone not born in Massachusetts," was the prompt reply.—Woman's Home Companion.

The Cost of Bad Roads.

Bad roads cost immeasurably more than good roads.

Bad roads increase the cost of hauling and travel more in a month than the annual cost of good roads.

Bad roads increase the cost of hauling to market and frequently cause loss on produce.

Bad roads mire and break wagons and motors and wear out horses.

Bad roads consume time that might be profitably used otherwise.

Bad roads keep children from school.

Dust and mud on bad roads ruin clothes, ruin tempers, destroy comfort, hinder sociability, injure produce and merchandise, and interrupt business.

Each taxpayer pays his own cost in full.

The cost of bad roads amounts to ten times the tax required for the good roads bond issue.—St. Louis Post-Dispatch.

The fall of Erzerum, in Armenia, was a big Russian victory, won by Grand Duke Nicholas. The garrison of 100,000 men evacuated the place, leaving 1,000 guns. Russians reports say the Kurds massacred thousands of Armenians before the retreat. The Armenians are hailing the Russians.

PROF. HAMLETT IS CHARGED DROPS SUIT WITH MURDER

Abandons Contest Saturday Night For Secretary of State.

MAKES PUBLIC STATEMENT

Unfortunate Domestic Troubles and Lack of Financial Resources Lewis Pays Costs.

Frankfort, Ky., Feb. 21.—Barksdale Hamlett, former State Superintendent, and Secretary of State James P. Lewis, Saturday night entered into an agreement by which Hamlett's suit in the Franklin Circuit Court, contesting the election of Lewis is to be dismissed on Hamlett's motion. Secretary of State Lewis is to pay all costs and the attorney's fees. The agreement was signed by the two principals and James Andrew Scott, Elwood Hamilton and L. W. Morris, attorneys for Hamlett, and Thomas B. McGregor, attorney for Lewis.

The settlement of the suit seems to have been suddenly suggested and consummated. One of the impelling factors apparently was a dawning realization of the cost, as the pleadings on both sides furnished a basis for opening ballot boxes in hundreds of precincts in fully a third of the counties in Kentucky.

MAKES PUBLIC STATEMENT.

He gave out a brief statement, saying:

"On account of unfortunate domestic affairs and lack of finances, caused by the hard fight I had to make in the primary and my expenses during the election, and since, I find it impossible to continue the contest without imposing on my friends, I believe I was fairly and honestly elected; but under the circumstances, with hostile conditions both inside and outside the party, I deem it advisable to give up the contest through a sense of loyalty to my family first, and to the Democratic party for the sake of harmony."

CLOTHES AND THE MAN.

An amusing incident occurred last week in a certain British government office during the medical examination of members of the staff eligible for military service. The men disrobed in an anteroom, and on entering the presence of the doctors one of them was found to be suffering from gout, whereupon one of the medics, no doubt having in mind the traditional high salary and easy time of the average civil servant, solemnly adjured him to give up port and high living. The funny thing about it was that the person lectured happened to be the office coal porter, whose meager salary barely provides for the necessities of life!

EFFECT OF SOIL ON WHEAT.

The influence of different soils on the composition of wheat is the subject of an investigation undertaken by the United States bureau of chemistry. The effects of several kinds of soil will be tested under identical atmospheric conditions. The program contemplates transporting to the Arlington experimental farm 1-320 of an acre of soil, three feet deep, consisting of about sixteen tons each of sandy clay, marl, muck and a good agricultural soil, and in each of these plots the same kind of seed will be grown.

CANNIBALISM.

Robert—What did you have for dinner?

Thomas—Just our own folks.

Robert—Oh, we had the minister.

CONTRADICTORY EVIDENCE.

"Queer, isn't it?"

"What's queer?"

"That you can always tell a man is full by his vacant stare."

ENIGMATIC.

"What do you think about kissing as an unsanitary proceeding?"

"I think as a practice everyone should set his face against it."

Another Probe.

Senator Robinson, of Arkansas, has demanded an investigation of the Army Aviation Service, which he said was "contemptibly inefficient."

Frank Postell, Col., Faces Trial For Killing John J. Robertson.

WOUNDED STRANGER IS DEAD

Negro Fully Identified By His Victim Before He Died.

Frank Postell, col., is now held on a charge of murder. He was arrested in Owensboro last week and brought back to Hopkinsville charged with assaulting and robbing John J. Robertson, a stranger from Kingston, Tenn., on Feb. 11, near the third I. C. trestle. Robertson was left for dead with a fractured skull, but regained strength enough to crawl into view and was picked up and brought to town. He was taken to the Jennie Stuart Hospital and an operation performed that restored him to consciousness.

He seemed to be improving and Saturday Postell was taken before him and fully identified as the negro who undertook to show him the way to a farmer who wanted to rent some land and enroute knocked him senseless and robbed him of \$34.

The clew against Postell was furnished by another negro who told the police that Postell had asked him to go with him to "get some money off of a white man."

Following the very timely identification, Robertson began to grow worse and died Saturday night.

His wife was heard from at Kingston, Tenn. Robertson was a man about 50 years old and had been living in Chicago. Expecting to locate on a farm in this county, he came here and had his goods shipped here and was murdered while looking for a farm to work.

PORTLAND BOY TIES

WORLD'S RIFLE RECORD.

Portland, Me., Feb. 21.—The possible 200 score, made here four years ago in a school-boy rifle shoot, which was claimed at the time to be a world's record, was realized by Gladstone Fielding, captain of the Portland High School Rifle Team, in a match with Morris High, of New York, in the School Boy Rifle League of America. One hundred bull's eyes were shot prone and an equal number off-hand. The record of 1912 was made by Wendell T. Smith, of the Deering High School.

Falls Into Fireplace.

Elkton, Ky., Feb. 21.—W. H. Mims, of Allensville, Representative from Todd county in the General Assembly of 1900 and 1902, was burned about the head when he was seized with vertigo, falling into an open fireplace. He is 75 years old and has been ill for several years.

The average human body only weighs a pound in water.

Who-What-?

In every field of human endeavor the man or the product that excels must forever live in the white light of publicity where envy and emulation are constantly at work.

Whether in art, literature, music, science or industry, excellence brings the same rewards and punishment.

Widespread recognition is the reward, and the punishment fierce denial and detraction.

When a man's work becomes a standard for the whole world, it also becomes a target for envious competitors.

The leader is assailed because he is a leader, and the effort to equal him is the proof of his leadership.

Failing to equal him the follower seeks to depreciate and to destroy—but only confirms once more the superiority of that which he wishes to supplant.

There is nothing new in this. It is as old as the world, as old as human passions—envy, fear, greed, ambition and covetousness.

And it avails nothing. The man or the product that has in them the real qualities of leadership remains the leader.

That which is good or great makes itself known no matter how loud the clamor of denial. That which deserves to live—lives.

Who is

THE 1st PRIZE MERCHANT
in this County?

Far Reaching Decision.

Road bonds totaling \$2,840,000, voted by thirteen counties, are validated, it is believed, by the ruling of the Court of Appeals in the Fayette county case. The point involved in some of the counties was not before the court in the Fayette county case, but it is believed these points were covered by dictum which favored the validity of the issues.
